KEYS TO RESPONSIBLE DRIVING™

Driving a car entails great responsibility; driving decisions can often be matters of life or death. Becoming a responsible driver does not necessarily require years of experience, rather, it is simply a matter of learning how to drive legally, defensively, and safely.

This comprehensive, self-paced program, along with the accompanying Guide to Safe Driving, can help you become the best driver you can be as well as help you pass your state's Department of Motor Vehicles examination.

With a pretest at the start of the program to measure your overall knowledge and to correct any misconceptions, and a posttest to measure how much you've learned, *Keys to Responsible Driving* identifies areas requiring further understanding in order to have you driving defensively and responsibly in no time.

Written by Seymour Levine

A veteran writer and responsible driver, Seymour Levine spent nearly a year meeting regularly with dozens of traffic safety engineers, government authorities, and driver education specialists. He is a nationally recognized writer of training materials and is currently working on other projects for CBS Software.

Made in U.S.A.

3L-0211

Features:

Nine Self-Paced, Menu-Driven Sections

Topics include handling and maneuvering, signs and regulations, city and town driving, and expressway driving with a separate section emphasizing an awareness of the dangers of driving under the influence of alcohol, drugs, or emotional stress.

Full-Color Graphic Simulations

Put you in the driver's seat by presenting realistic situations for you to react to. Provide immediate feedback and explanations of sound driving techniques.

Extensive Pretest and Posttest

Pretest gauges initial driving knowledge; post-test pinpoints areas needing improvement.

Guide to Safe Driving

Used in conjunction with the program, this guide includes information on state driving laws, how to behave at the scene of an accident, keeping a car in good condition, and definitions of driving terms.

Developed and Reviewed by Experts

This program has been reviewed by national safety organizations including the American Automobile Association, the National Safety Council, and the Advocacy Programs Division, Allstate Insurance Company.

Limited 90-Day Warranty.
